The four types of questions are as follows:

Quote—The contestant is given a reference and will be expected to write the verse.

2. The King James Version only (not New King James Version) will be used.
3. There is no penalty for punctuation errors.

CHECKERS
ELIMINATION/PERFORMANCE EVENT

A.C.E. will provide a board and set of checkers.
All contestants are to abide by the dress codes (beginning on page I-8)
listed in the APPEARANCE SECTION of these guidelines.

The object of play is to capture all of the opponent's men or to reduce the
opponent to immobility. The loser is the first one who is unable to move in regular turn, either
because all his men have been captured or because all his remaining men are blocked. A game
may be terminated as a draw when neither player holds an advantage sufficient to force a win.

A player whose position is apparently inferior may call upon his opponent to win the game or show an increased advantage within forty of his own moves; failing to do such, the game is drawn. The following rules will also be observed:

1. Black has the first move. The younger player receives black.
2. A piece that is touched by a player must be moved, if possible; if a playable piece is moved over any angle of its square, the move must be completed in that direction.
3. There is a time limit of three (3) minutes for each move, except when a player is confronted with a compulsory jump in only one direction; then he must make his move within one (1) minute.
4. All jumps must be completed. When this rule is violated, the player must retract his illegal move and make the capture instead.

Checkers is a one-game-only elimination match with a possibility of losers selected for playback. At the discretion of the Chief Judge, contestants may be asked to play 2 of 3 matches for quarter-finals, semifinals, and finals.

CHESS
ELIMINATION/PERFORMANCE EVENT

A.C.E. will provide board and chessmen. All contestants are to abide by the dress codes listed in the APPEARANCE SECTION (beginning on page I-8) of these guidelines.

Players designated "white" and "black" sit on opposite sides. Each player has 16 pieces, which are placed on the board at the beginning of the game. The following rules will apply:

Object of Play—The game is won by capturing the adverse king. The capture is never consummated; when the king is attacked and cannot escape, he is said to be "checkmated" and the game ends. Many games end by resignation of a player who sees that he cannot escape eventual defeat.

Drawn Games—A game may be abandoned as drawn for any of the following reasons: insufficient force, stalemate, perpetual check, agreement by both parties, or the 50-move rule.

NOTE: The 50-move rule may be called at any time by a player who is at a disadvantage, but the 50-move rule is canceled if any piece is captured or if any pawn is moved.

Other Rules to Remember

1. White moves first; thereafter the players move alternately. The younger player will have first choice of white or black.
2. A player may not touch a piece without asking his opponent, unless he plans to play that piece.

3. After three (3) minutes, time will be called; the player has one (1) minute to finish his play or forfeit the game.
4. A player should not disturb his opponent or allow those watching to do so. There shall be no talking by players or spectators in the competition area.
5. The tournament will be conducted according to the rules of the International Chess Federation, whose address is given below.
6. Chess is a one-game-only elimination match with a possibility of losers selected for playback. At the discretion of the Chief Judge, players may be asked to play 2 of 3 matches for quarterfinals, semifinals, and finals.

REMINDERS: Competitors must be available to play at designated times. Chess clocks may be used in the quarterfinal rounds or at the discretion of the Chief Judge. Once used, chess clocks must apply to all contestants thereafter.

SPELLING
PERFORMANCE EVENT

All contestants are to abide by the dress codes listed in SECTION I of these guidelines.

Each contestant is given an answer sheet and is assigned a desk. A.C.E. will provide pencils or pens. The judge will pronounce each word twice and give a definition for the word. Contestants will then write the word. Each contestant will write all words. Following the final word, judges will collect all papers. Winners will be selected according to accuracy. Judges shall give at least two practice words before starting competition.

Words are provided by A.C.E. and must be spelled exactly as they appear on the official A.C.E. list. Alternate or British spellings will not be allowed. A.C.E.'s list is compiled from the preferred spelling found in *Scott Foresman, Thorndike Barnhart Advanced Dictionary*, Glenview, Illinois, 1997.

PACE BOWL
ELIMINATION/PERFORMANCE EVENT

All contestants are to abide by the dress codes listed in the
APPEARANCE SECTION (beginning on page I-8) of these guidelines.

Each school may enter only **ONE TEAM** consisting of four students. Teams compete against each other in regular tournament elimination procedure. Competition order will be arranged prior to beginning the match according to the bye system. The team earning the most points in each round of competition shall move to the next round until first through sixth places are determined.

Each school team must consist of four students proficient in math (including Algebra I and II, Geometry, and Trigonometry), English and literature (through PACE 1144), science (through Physics), social studies (world geography, American and world history, civics, and economics), and electives. Each team will designate a spokesperson or captain.
I**MPORTANT: For toss-up questions, each team member chooses two categories in which to answer questions. He/she may only answer questions in these categories. Everyone may answer elective questions. If an unqualified team member answers the questions before the judge realizes he was not qualified, then his team loses the toss-up and the points even if the answer was correct.** Questions are taken from PACEs starting with PACE 1073. Questions may be visual (such as pictures, maps, etc.).

Competition will consist of two types of questions:
1. Toss-up questions
    a. For toss-up questions, each team member chooses two categories in which to answer questions (math, English, science, or social studies). He may only answer questions in these categories. Everyone may answer elective questions. If an unqualified team member answers the question, then his team loses the toss-up and the points even if the answer was correct.
    b. A subject area ("Math Toss-up," "Science Toss-up," etc.) and the point value of the Bonus question to follow ("With a fifteen point bonus question") will be announced before reading each toss-up question.
    c. There is a thirty second maximum time limit to "buzz in" with no discussion, written or verbal. If there is discussion among the team members, five points will be deducted from the team's score.
    d. Time starts as soon as the question is read once. Repeated questions count against the thirty seconds.
    e. If a player hits the buzzer before the question is read completely, the reader will stop and the player must answer.
    f. Any undue hesitation after "buzzing in" is a wrong answer.
    g. A player should wait until he is recognized by the reader before giving the answer to the toss-up question. He may not have been the first to "buzz in" as he thought. If an answer is given before he is recognized, the question is tossed out and the team loses five points.

2. Bonus questions

    a. If the contestant responds to the toss-up question correctly, his team earns the opportunity to try a bonus question.

    b. Bonus questions have varying point values and time allotments. A repeated question counts against the allotted time for the question.

    c. Communication among team members is permitted. However, the answer comes from the team spokesperson or captain, unless he designates another team member to give the answer (e.g., if the answer is too long or too complicated to easily communicate to the spokesperson).

    d. Allow the full allotted time and then ask for one response.

    e. No points are deducted if the team responds incorrectly.

Questioning continues until there are ten correctly answered toss-up questions. The team with the highest score is declared the match winner. If there is a tie after ten correct toss-ups, then an additional toss-up question is asked to determine a winner. In the event a team misses the tiebreaker toss-up and loses fives points, the match **DOES NOT END** but continues until a toss-up is answered correctly. The team that correctly answers the tie breaking toss-up will be permitted to answer the accompanying bonus question.

A.C.E. provides the following: tables, chairs, and stopwatch; pads, pencils, and buzzers for each table. A.C.E. provides all PACE Bowl questions. Each round will be supervised by the moderator, timer, and scorekeeper.

BIBLE BOWL
PERFORMANCE EVENT

Teams may consist of **three to five players from the same school or homeschool group.** (Teams may be all male, all female, or mixed.) All members must be eligible to compete based upon the *Student Convention Guidelines.* Each school or homeschool may enter up to three teams. Bible Bowl will be a closed-door competition. Each team will have three (3) minutes to answer as many questions as possible. Each player will have five (5) seconds to answer each question. All questions will be directed to individual team members consecutively and not answered as a group. Each correct answer will earn a point value. Teams will race against the clock, not against an opponent. After all teams have competed, the teams with the six (6) highest scores will be submitted to the chief judge. If there are tie scores among the top six (6), those teams will be called back for a tiebreaker round. Each team in the tiebreaker round will be given the same group of questions, which will differ from those used in the first round.

Please note: Bible Bowl questions will not be released before competition. Bible Bowl will be in English only.

The following chart lists the books of the Bible where the questions will be drawn from each year. This list will repeat itself starting with Year 1.

SCIENCE
NONPERFORMANCE EVENT

Science projects may be done by one or two contestants and must have been started after the completion of the previous International Student Convention.

Please note: Science events are early entries for International Student Convention.
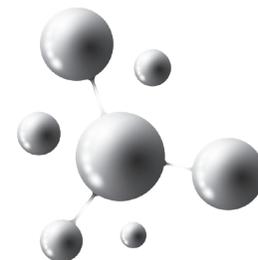

Types of Entries

1. **Collection**—classification and display. Examples: rocks, insects, and leaves. Man-made objects such as coins, stamps, and arrowheads should be entered as SOCIAL STUDIES COLLECTION PROJECTS (214).
2. **Research**—Develop a hypothesis, perform an experiment, record results, write your conclusion, and prepare a display to exhibit your work (e.g., how light helps a plant grow). This event is not a library research paper.
3. **Engineering**—Build electronic equipment, optical devices, solar energy converter, etc., using scientific principles to perform a task. Exhibit should include plans, diagrams, schematics, parts list, etc., so that another person could take your plans and duplicate your project. Do not use commercial kits.
4. **Theoretical**—An exhibit displaying a discussion of a scientific principle, concept, technique, or theory using charts, graphs, diagrams, photographs, audio-visual, or other visual aids.

Checklist for Science:
1. Contestant or contestants may enter one exhibit in each event.
2. Each entry must be fully completed and ready for exhibition.
3. A list shall be submitted identifying any work included in the display that is not the work of the contestant (such as a specially machined component or electronic test equipment). Experiment notebooks and other supporting data should be available for the judges. Photos which include people must adhere to contestant dress standards.
4. Exhibits must occupy a table or floor area no wider than 48 inches.
5. If electrical power is required, 120 volt AC will be available. All switches and cords must be U.L. or C.S.A. approved. The exhibit must be wired in a safe manner.
6. No entry creating a safety hazard will be allowed. Dangerous chemicals; offensive odors; explosives; open flames; or live animals, reptiles, or insects must not be exhibited. Exhibits requiring running water are not permitted.
7. Contestant or contestants will set up their exhibit and then leave the area.
8. A.C.E. is not responsible for loss of or damage to any exhibit.
9. Attach the following forms:
    a. Judge's Forms (CF24). Three (3) copies with name, school name, customer number, address, and entry filled in. These are required for Regional Convention only.
    b. Experiment notebook and other supporting data.
10. Entries must have a 3" x 5" card securely attached to each piece of project with the following information neatly printed or typed: entry, student's name, school name, school customer number, school address, city, state, and ZIP Code.
11. Entries involving computers should have self-booting and menu driven or self-running software.

CRITERIA

Originality—Creative approach is given to the project.

Scientific thought—Accuracy is exhibited in displaying a scientific fact or principle. Consideration is given to probable amount of effort and study that went into the project.

Workmanship—Quality is shown in the construction of the exhibit including the neatness of labels and descriptions.

Thoroughness—The project is presented completely and carefully.

Clarity—The average person can understand the exhibit clearly.

Degree of difficulty—Consideration is given to the level of difficulty involved and time spent to prove the project.

On your accompanying paper:

1. Have you stated your purpose, hypothesis, or reason for your project?
2. Have you written down the process or steps used in solving or approving the problem (or hypothesis) or included an illustration of how your project works?
3. Have you written out the conclusion or what has been proven or illustrated?
4. Have you used references and quotes, **in your own words**, that have expressed what has taken place?
5. Have you cited your sources (quotes, facts, photos) on your bibliography page?
6. Have you given a Scriptural application or reference for your project?
7. Have you given a brief history of the discovery/invention or the hypothesis/facts you are using in your project? Have you shown how the discovery/invention has advanced to today's use? What (in your opinion) is its future use?
8. Have you done your very best, using all resources available, to make your display eye-catching and interesting?
9. Does your display clearly agree with and illustrate what your paper discusses?
10. Does your project provide useful information or is it only amusing?

HINTS FROM THE SCIENCE JUDGES

The local public library often has books on the subject of science projects or Science Fairs. These books will give the student many helpful ideas, but the student still must be creative in his project. Any outside sources used must be noted on a bibliography. (See English PACE 1119 for more information on bibliographies.) Labels that are neatly lettered and attached will enhance the project.

SOCIAL STUDIES
NONPERFORMANCE EVENT

Social studies projects may be done by one or two contestants and must have been started after the completion of the previous International Student Convention.

Please note: Social Studies events are early entries for International Student Convention.

Types of Entries

1. **Collection**—classification and display. Examples: aboriginal artifacts (arrowheads, spear heads, tools, etc.), coins, stamps, battlefield artifacts (bullets, buttons, canteens, etc.), and flags. A collection project consists of both a display and a paper. The display for a collection represents the bulk of the work and is the more important part of the project. The paper for a collection project may be a paper or it may be a notebook with pictures, diagrams, list of sources for a collection, etc. This documentation for a collection could be likened to the signs posted on the wall next to a display in a museum, putting the display into a context, explaining from where the collection came, how it came to be, a description of exactly what it is a collection of, and so on. Any outside sources used should be included in a bibliography.

2. **Research**—Choose a topic that is directed to the development of a thesis or the answering of a question. Topics may be from local, regional, national, or world history, economics, geography, or political science. Research projects from the disciplines of sociology, psychology, and anthropology are not acceptable. Do the necessary research, write your conclusion, and prepare a display to exhibit your work. (e.g., *My Family Tree, Immigration: An Oral History, Economic Impact of the Cotton Gin, Quebec and the Seven Years War*). The paper for a research project should be a true research paper that follows all the procedures for such a paper (e.g., bibliography or a list of works cited, footnotes or endnotes, an outline, a title page, etc.) For a research project, the bulk of the work is in the paper. The display is there to augment, support, and illustrate the research contained in the printed document. It could be a reinforcement for the text of the paper.

Checklist:
1. Contestant or contestants may enter one exhibit in each event.
2. Each entry must be fully completed and ready for exhibition.
3. A list shall be submitted identifying any work included in the display that is not the work of the contestant.

4. Models, notebooks, scrapbooks, and other supporting data should be a part of the exhibit. Photos that are not historical and include people must adhere to contestant dress standards.
5. Exhibits must occupy a table or floor area no wider than 48 inches.
6. If electrical power is required, 120 volt AC will be available. All switches and cords must be U.L. or C.S.A. approved. The exhibit must be wired in a safe manner.
7. No entry creating a safety hazard will be allowed. Dangerous chemicals, explosives, or open flames must not be exhibited. Exhibits requiring running water are not permitted.
8. Contestant or contestants will set up their exhibits and then leave the area.

10. Attach three (3) copies of Judge's Form (CF24) with name, school name, customer number, address, and entry filled in. These are required for Regional Convention only.
11. Entries must have a 3" x 5" card securely attached to each piece of project with the following information neatly printed or typed: entry, student's name, school name, school customer number, school address, city, state, and ZIP Code.

Thoroughness—The project is presented completely and carefully.

Clarity—The average person can understand the exhibit clearly.

On your accompanying paper:
1. Have you clearly stated your purpose, theme, or thesis for your project?
2. Have you written out the conclusion or what has been proven or illustrated?
3. Have you documented your research and cited all sources used on a bibliography page?
4. Have you given a Scriptural application or reference for your project?

ESSAY WRITING
NONPERFORMANCE EVENT/EARLY ENTRY

Refer to the HINTS FROM THE ESSAY WRITING JUDGES before beginning your essay.

A contestant chooses a topic and writes a paper. (Suggested topics are listed on page II-25.)

1. A good essay will use facts, arguments, examples, and illustrations that allow the reader to persuade himself of the truth he is reading.
2. The essay must have been written after termination of the previous International Student Convention and must be the original work of the student.
3. The essay must be accompanied by a written outline that the student used to organize the essay. (For suggested outline format, please reference English PACE 1097, pages 25–31.)
4. The essay must be accompanied by a written bibliography to identify sources used. (For suggested bibliography format, please reference English PACE 1119, page 31.)
5. Plagiarism of any kind will automatically disqualify the entry. Any borrowed material (statements and/or ideas) must be properly noted. (Cite your sources.)
6. A significant portion of the essay must be written during school hours to verify authenticity.
7. One entry per contestant.

Understanding Essay Writing

An essay is a written composition governed by one controlling idea called the thesis. This thesis should be supported by at least three main points. In order to make the essay interesting and persuasive, each main point should be explained with specific examples, illustrations, facts, quotations, etc. In order to avoid plagiarism, each outside source used must be given an in-text citation and be documented on the bibliography page. Give careful attention that the essay includes an interesting introduction, with the thesis given in the last sentence of that introduction. The essay should end with a clear note of finality, with the conclusion reiterating the main points covered in the composition. All sides of the argument must be handled, not just the writer's opinion. For tips on Essay Writing, reference English PACE 1126, pages 25 and 26.

Regional Convention Checklist for Essay Writing:

Essay Writing entries are to be submitted electronically prior to Convention. When your school registers for RSC, an email will be sent with instructions for submitting early entry documents including:
1. The essay—length of 500–700 words. (The outline and bibliography do not count toward the word limit.) The essay should be double-spaced, with one full-inch margin on all sides. Use a 10- to 12-point font. Recommended fonts include Times New Roman, Helvetica, or Arial. Avoid heavy, bold, or decorative fonts.
2. The outline used to organize the essay.
3. The bibliography identifying sources used.
4. One Creative Composition Affidavit (CF28) filled out.
5. One Judge's Form filled out. Include the title and theme of your essay on the Judge's Form where indicated.

HINTS FROM THE ESSAY WRITING JUDGES

Read over the Judge's Form before writing. Judges look for organization and persuasiveness in essays. Begin your entry with a strong thesis clearly stated in the first paragraph; then follow through logically, smoothly, and persuasively to support that thesis. Use your own idea and **avoid clichés or generalizations that are not supported by examples or illustrations**. Quotes are a good way to support a thesis but should be used sparingly; the judges are interested in what you have to say. If you do use ideas or quotes from outside sources, please use in-text citations and add these sources to your bibliography page. Careful attention should be given to organization, and your outline will be a valuable tool to keep ideas flowing in the proper order. Judges also look at the technical merits of the piece. Writing should be in the **third** person unless you have a specific reason for using first or second person. PROOF YOUR WORK! The essay should be neat and free of typing, spelling, grammatical, and punctuation errors. Watch for pronoun/antecedent agreement, wordiness and redundancies, parallelism, and point-of-view shifts. Be careful not to go over the length limit. It would not be equitable for judges to allow you more space than they allow your competitors. Finish with a strong, closing statement. Refer to English PACEs 1119, 1126, and 1127 for suggestions.

The contestant writes an original poetry composition with a Christian, patriotic, Biblical, evangelistic, persuasive, or historical theme. The contestant should keep in mind his purpose for the poem—why it is being written and what effect is being achieved.

1. The poem may be narrative or discursive with an assumed or personal point of view. All poems are lyrical, though usually not written to be sung. You may, however, specifically choose to craft your poem as lyrics to be set to music.
2. The poem must have been written after the termination of the previous International Convention and must be the original work of the student.
3. Plagiarism of any kind will automatically disqualify the entry.
4. A significant portion of the poem must be written during school hours to verify authenticity.
5. One entry per contestant.

(Variations from these line limitations must show evidence of very careful attention to word choice and structure, plus a strong thematic basis.) Use a 10- to 12-point font such as Times New Roman, Helvetica, or Arial.
2. One Creative Composition Affidavit (CF28) filled out.
3. One Judge's Form filled out. Include the title of your poem on the Judge's Form where indicated.

HINTS FROM THE POETRY WRITING JUDGES

Judges look for poems that are neat in appearance, complete in thought, and effective in message and impact. The true purpose of a poem is to transmit in words a complete thought and, at the same time, to move emotions. A poem must have a reason for existence; the emotional impact and a resultant change in attitude is that reason. If your poem is correct in form, yet is not logically correct or emotionally stimulating, the poem will not score well. A poem must DO something, not merely talk about something. The theme, then, becomes of utmost importance; for, if the poem is to do something, it must do something worthwhile. Second, but still important, is the form of the work. If the form is weak or inconsistent, it will not fall correctly on the ear, causing the message to be lost to the reader. Poems should also have a lyric quality, though they may not be intended for music. Remember, a poem can only do ONE thing, not several. Strive for unity of purpose and skill of execution. Technical errors of any sort, especially those that might be thought of as minor, such as a misplaced comma or misspelled word, often represent major weaknesses in aspects that are less obvious to the trained eye and ear. A scrupulous writer always attends carefully to the smallest and most obvious detail. What is said is always at the mercy of how it is said. When this principle is ignored, the reader will not be guided by the writer's thoughts but by his own. These thoughts may be counterproductive to the writer's subject and intention and become an unconscious use of stock responses, formulaic phrases, hackneyed expressions, irrelevant associations, and sentimentality rather than honesty. A poem that effectively treats a subject moves the reader to a place where he has never been before. Refer to English PACEs 1105 and 1106 for ideas.

HINTS FROM THE SHORT STORY JUDGES

Judges look for stories that are original and imaginative yet believable. It is important that your Short Story contain a balance of all the elements of narrative fiction: plot, setting, characterization, conflict, and resolution. It should not overemphasize one element to the detriment of the others. Because of space limitations, it is important that you develop each facet of your story carefully and thoughtfully, paying particular attention to word choice. Use words economically—that is, do not use several trite, colorless words when one strong, imaginative word could replace them and enhance the tone of your story. Neither should you waste good words. Make each one count. Consider each word carefully. Is it there for a reason? Is it used accurately? Does it tell the reader exactly what you want him to know, or does he have to guess at your meaning? When you are satisfied that your story says what you want it to say, check it carefully to eliminate errors in grammar, punctuation, and spelling. Also check the word count, since judges will subtract points if you exceed the limits.

WEBSITE DESIGN
NONPERFORMANCE EVENT/EARLY ENTRY

Websites can serve many purposes. They may support existing customers, give information, or promote products, services, or ideas.

SOME GUIDELINES

The Website will be judged real-time over the Internet, so it is more than an academic exercise. It is to be a fully functioning site that must have a clear, practical purpose, which it pursues with creativity and skill.

Students are free to use any platform, tools, programs, computer languages, other available resources, or their own development tools. Remember, however, there are a variety of browsers that may attempt to access the site.

REQUIREMENTS
1. The site must have been developed since the conclusion of the last International Student Convention.
2. No more than two students may participate in the design and development of the site.
3. Site must consist of more than a home page. It should include more than one webpage and the viewer should have the ability to navigate between those pages.
4. Site address must be included on the Judge's Form.
5. Any Scripture reference listed must be from the King James Version. All subject matter (photos) must meet the A.C.E. dress and appearance guidelines.

Possible project areas (These are not limits.)
Informational—Offer or provide information.
Promotional—Promote a school and/or church.
Service—Offer a service to meet the needs of individuals or groups.

CRITERIA—STRUCTURE

Navigation of Site—The site should be easy to use and navigate. The user should know where he is and have the ability to get to another location in the site with ease.

Creativity—The site will be evaluated for creativity in the areas of uniqueness, content, approach to the material, and the method of engagement. Students should be encouraged to design their own graphics and content, limiting the use of professional templates. Consideration will be given to technology usage (HTML, CSS, etc.).

Logical Connections—The site must be logical and make sense to specific users. What may be logical to one user may leave another totally lost. For example, a site developed for teens would be very different from one for retirees, just as one for travel is very different from one on finance.

Engaging Appearance—The site should be attractive, pleasing, interesting, and beneficial. The time an average user will give a site is a matter of seconds unless it engages the viewer visually and mentally.

Elements (Variety and Appropriateness)—The site should contain enough variety to hold interest while maintaining an overall consistency that reflects the purpose and desired image of the site. It should conform to the Biblical values and overall Convention guidelines regarding appropriateness of subject matter, substance, graphics, etc.

Browser-Friendly—The site should be fully functional on multiple browsers and viewable on as many computers as possible. Several browsers are in wide use; however, the older the browser is that can access your site, the less robust the elements are and the more limited the creativity can be.

Graphic Design—The site should follow generally accepted Internet standards regarding presentation. Some of these regard font style, spacing, overlay, and other aspects of the presentation. There are helpful sites on the Web to learn about these items.

CRITERIA—CONTENT

Clear—For the site to be effective, the content must be clear in its presentation, navigation, functionality, and purpose.

Appropriate—The content of the site should meet the convention guidelines and standards and be appropriate for its intended purpose. Any Scripture reference listed must be from the King James Version. All subject matter (photos) must meet the A.C.E. dress and appearance guidelines.

Accomplishes Goals—The user should be able to understand and receive benefit from the purpose of the site as intended by the developer. If this doesn't happen, the user will probably leave quickly and products will not be sold, information will not be imparted, and ideas will not be communicated.

Regional Convention Checklist for Website Design:
Website Design entries will be submitted electronically prior to Convention. When your school registers for RSC, an email will be sent with instructions for submitting early entry documents including:
1. The Website Design.
2. The title and web address of the Website Design.
3. One Creative Composition Affidavit (CF28) filled out.
4. One Judge's Form filled out. Include the title of the entry on the Judge's Form where indicated.

POWERPOINT PRESENTATION
NONPERFORMANCE EVENT/EARLY ENTRY

The PowerPoint competition entry is to be a user-directed, stand-alone presentation using no live Internet links. The student is free to use any element that PowerPoint will support, as long as the presentation does not violate the A.C.E. standards of dress, appearance, and conduct as presented in these guidelines.

TYPES OF ENTRIES

1. **Linear**—Presentation begins and runs through to an end. In a linear presentation, there is a set sequence to the presentation, starting at the beginning and continuing to the conclusion. No navigation is required.

2. **Nonlinear**—User is given navigational control and can wander through the content at will. The key difference between a linear and nonlinear presentation is that the user can pick and choose, using a random route through the nonlinear presentation. Navigational choices are required.

REQUIREMENTS

1. The presentation must have been developed since the last International Student Convention.
2. No more than two students may participate in the design and development of the presentation.
3. While there are a number of presentation products on the market, Microsoft PowerPoint is required for Student Convention competition.
4. Designers must give proper credit for any copyrighted material.
5. Any Scripture referenced must be from the King James Version. All subject matter (photos) must meet the A.C.E. dress and appearance guidelines.

CRITERIA

Navigation of Site (applicable to nonlinear presentations)—The presentation should be easy to use and navigate.

Creativity—The presentation will be evaluated for creativity in the areas of uniqueness, content, approach to the material, and method of engagement.

Connectivity—Each step in the process must successfully relate the user to where he has been and where he is going. The user should understand throughout the presentation the relationship of the parts to the whole.

Engaging Appearance—The presentation is visually attractive and interesting. It creates interest and effectively conveys information to the user in a memorable fashion.

Elements—The presentation should contain enough variety to hold the interest of the user while following Convention guidelines and standards of appropriateness. All the elements contribute to the presentation's effectiveness in meeting its objective. Presentations may include copied folders from websites (live Internet links are not acceptable), video clips, sound bites, photographs, etc.

Please note: All elements of PowerPoint presentations must meet A.C.E. standards.

Graphic Design—The project should follow generally accepted media standards regarding presentation. Some of these regard font styles, spacing, overlay, and other aspects of the presentation.

CONTENT

Clear—If the content is not clear, the presentation is ineffective. It should be clear in its presentation, navigation, and purpose. Since this is a user-directed presentation, clarity is indispensable.

Appropriate—The presentation should fit the convention guidelines and standards and be appropriate for its intended purpose.

Useful—The presentation should be designed to serve a useful purpose.

Accomplishes Goals—The presentation should have a clearly stated goal so the user is able to understand what the developer intended.
